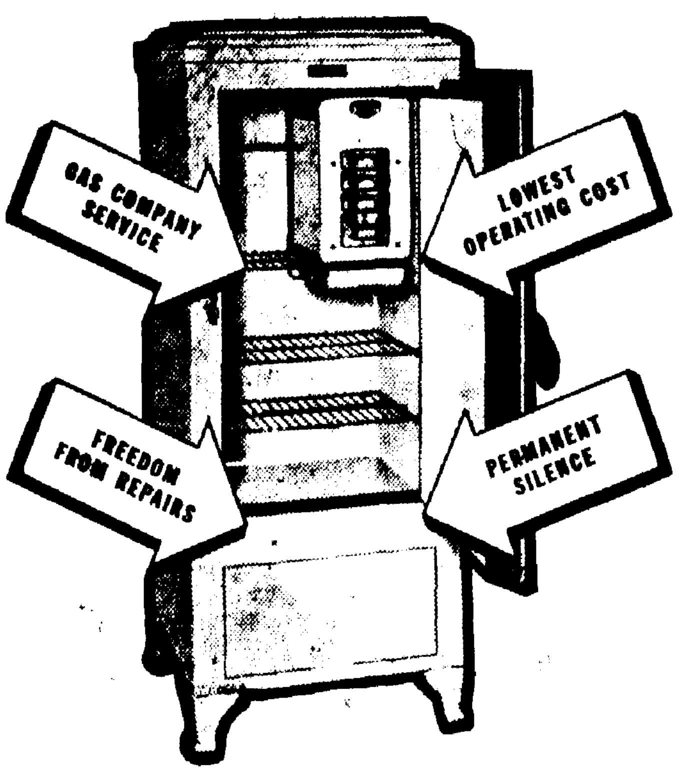
Here's A Puzzle, Solve It!

Suppose a young woman to be entirely alone in the world, with no one in any way depending upon her. Suppose her to be independently wealthy, through her own ability as an illustrator and poster artist. Suppose her to be modern in her ideas and beliefs, and rebellious against the creed that every girl is destined for matrimony and motherhood, and these things alone.

Is such a young woman right or wrong in contending—and carrying out her contention — that she has just as much privilege as a man has, to taste life to the fullest, without marriage?

That is the interesting and debatable theme of "Cocktail Hour", a Columbia feature picture which opens tomorrow at the Roky Treatre, with Bebe Daniels as its star. And it is developed in a fascinating way by Director Victor Schertzinger. P. Brooklyn came to Woodbridge

More real value! More worthwhile advantages!



New AIR-COOLED

ELECTROLUX

THE Gas REFRIGERATOR

COST OF OPERATION — 6 CENTS FOR 24 HOURS

HERE'S the finest, simplest refrigerator Science has ever developed. It has no moving parts to cause noise or wear. It uses no water. A tiny gas flame does all the work. No wonder it gives you lowest operating cost. Gives you lots of ice cubes, too. Extra food space. Non-stop defrosting. Porcelain interior. Adjustable split shelves. Also exclusive Electrolux features. Two-temperature chilling unit. Trigger-tray release. And more! Every Electrolux is guaranteed by its maker, and serviced by your gas company. Come in today. See the beautiful new models. Terms are liberal.

Rathskeller Attracts Large Crowds Daily

Cool, Quiet Atmosphere Is A Delight To The Hungry and Thirsty; Miss Mitchell Popular.

One of the coolest spots to be found in Middlesex county these sultry days is the Hobart Tavern and Rathskeller, located at 278 Hobart street, Perth Amboy.

To this mecca travel a great crowd of thirsty and hungry people each day for refreshments and entertainment. While the Tavern has only been open a few months its popularity is growing daily as is evidenced by the large crowds who may be found in the establishment both day and night.

One of the big attractions at the Tavern is Joan Mitchell, blues singer extraordinary, who has, during the past few months, become the toast of Perth Amboy. Seldom has an entertainer met with the overnight success that has been accorded Miss Mitchell during her appearance at the Rathskeller. Her extremely delightful voice and charming personality has made her any number of admirers among the patrons.

Duke and his Hawaiians have also proved popular with the Rathskeller patrons, and all in all, its a great show few can afford to miss.

ROADSTAND OPENS

One of the finest roadstands in the Avenel section of the super-highway, is "Hiram's Farm" which recently opened with a banquet enjoyed by more than 100 guests. The new establishment is designed along modernistic lines and is considered a showplace by many who inspected it last Saturday night.

The stand will cater to special parties and meetings because of the adequate facilities to handle large gatherings.

Telling the Truth

"Some of us," said Uncle Eben, "takes most partic'lar pleasure in tellin' de truth when it's sumpin' unpleasant."

Harrigan, Once Army Captain

William Harrigan, Jim of Vina Delmar's "Pick Up", now at the Roky Theatre was born in New York, March 27, 1893, of professional parents. Made his first stage appearance with his father at the age of five in "Reilly and the 400". Toured with his father for several seasons in "Old Lavender". Later served in the United States Army, and retired with the rank of Captain. Returned to the stage, was seen in "The Acquittal", "Bought and Paid For", "The Dove", and "The Great God Brown", in which he played his favorite role. Is a member of the Players Club.

Russian airman Kolovin claims the world's gliding record by staying in the air with passengers for 10 hours 56 minutes at Koktebel, in the Crimea, recently.

"Alpiato tsagi," an alloy, has been developed in Russia for airplane construction, and is said to be cheaper to produce than duraluminum, but fully as efficient.

Flying fields are being laid out in the larger cities in once-backward Kwangsi province of China preparatory to the inauguration of a commercial air service.

Better a tooth out than always aching.

Better to deny at once than to promise long.

Better a mouse in the pot than no flesh at all.

Better an old man's darling than a young man's slave.

Better is a dinner of herbs where love is, than a stalled ox and hatred therewith.

Keeps Watch Over Little "Bills"

Bill, an Alsatian, on a farm near Herts, England, is a harmless old chap and has no objection to the chicks making their home in his kennel.

Canada-U. S. Business

Canada imports a large volume of American goods, for the most part manufactures. That country sells to the United States a large volume of pulp wood, newsprint and similar items of a noncompetitive nature.

Claims Longest Paved Street

Broad street, in Philadelphia, is 12 miles long and claims to be the longest paved and lighted street under one name in the United States. It was enlarged to its present width of 113 feet about 1850.

Successful Men and Inspiration

Successful men, in general, supply more inspiration than sound advice to those who follow in their footsteps. And that is as it should be. A boy needs to know that others have conquered discouragement, surmounted obstacles and arrived at last at the rainbow's end. But he must find for himself, in most cases, the road which leads to it.

Man's Increase in Value

A man increases in value when the world increases in value and owes that increase to him.

Money You Pay For Water Part Of Big Investment

Water itself is free. That is why the beat of the rain against the window-panes is unheeded. But when the water consumer hears the steady drip from a faucet he bestirs himself for he knows that it is wasting water which is not used but for which he must pay. He knows that all water that is delivered to the consumer must be paid for.

But he doesn't always know where the money goes that he pays for water, remarks the New Jersey Public Utility Information Committee. Behind the service that is vital to his comfort, to life itself, are the costly distributing system, the reservoirs, the pumping stations, filter beds, purification processes, and the corps of workmen who are on guard day and night to see that pure and wholesome water is available whenever the customer chooses to turn the faucet and in whatever quantities he may desire.
